Fatal rollovers of 15-passenger vans are most likely to involve tire failures. NHTSA research shows that tires on 15-passenger vans are often under inflated and in use past their service life. Aged tires are more prone to failure even if they appear to be new (as in the case of original spare tires).

AR 15-6 procedures generally govern investigations requiring detailed fact gathering and analysis and recommendations based on those facts. An "investigation" is simply the process of collecting information for the command, so that the command can make an informed decision. AR 15-6 sets forth procedures for both informal and formal investigations.
