SC-21 (Surface Combatant for the 21st century) was a research and development program started in 1994 intended to design land attack ships for the United States Navy. A wide variety of designs were created and extensively examined, including an arsenal ship with 500 cruise missiles. Eventually a "tumblehome" design of around 16,000 tons with two long-range guns and 128 missile tubes was ...

Saying that it has always been this way, doesn't count as a legitimate justification to why it should stay that way. Teacher and administrators all over the world are doing amazing things, but some of the things we are still doing, despite all the new solutions, research and ideas out there is, to put it mildly, incredible.

Many science fiction works have been set in the 21st century (years 2001 to 2100). With humanity now in the 21st century, many of the predictions of these works have so far been proven obsolete. This page lists only predictions regarding the 21st century, as opposed to contemporary accounts of the actual 21st century, which would be too numerous to list.
