Acknowledgements This project is part of the California Basic Skills Initiative aiming to build a toolkit for community college practitioners in the field of basic skills education.

Contextualized Teaching & Learning: A Faculty Primer

Technological unemployment is the loss of jobs caused by technological change. Such change typically includes the introduction of labour-saving "mechanical-muscle" machines or more efficient "mechanical-mind" processes. Just as horses employed as prime movers were gradually made obsolete by the automobile, humans' jobs have also been affected throughout modern history.

SAMR is a model designed to help educators infuse technology into teaching and learning. Popularized by Dr. Ruben Puentedura, the model supports and enables teachers to design, develop, and infuse digital learning experiences that utilize technology. The goal is to transform learning experiences so they result in higher levels of achievement for students.
