The Health Consequences of Smoking – 50 Years of Progress

The Health Consequences of Smoking – 50 Years of Progress

In this sense, 50 years have passed since the first paper on automated biometric recognition was published. Coincidentally, modern computer vision also had its beginnings approximately 50 years ago, with Roberts' PhD dissertation on machine vision of 3D solids (Roberts, 1963).

50 Years of Biometric Research: Accomplishments

50 Years of Bridging the Gap scattered enclaves produced incompatible machines, incompatible languages, and incompatible software. Geography almost guaranteed it, he wrote. So they would have to transcend geography. They would have to take all their time-sharing computers, once the machines became operational, and link them into a national system.
