Each year, nearly a million cases of child maltreatment, which includes both abuse and neglect, are confirmed, and many more probably go unreported.

Child Care Training Courses: Course List - Texas A&M

Traumatic brain injury (TBI), also known as intracranial injury, occurs when an external force injures the brain. TBI can be classified based on severity, mechanism (closed or penetrating head injury), or other features (e.g., occurring in a specific location or over a widespread area). Head injury is a broader category that may involve damage to other structures such as the scalp and skull.

Traumatic brain injury - Wikipedia

Child sexual abuse (CSA) is a form of child abuse in which an adult or older adolescent abuses a child for sexual stimulation. Sexual abuse refers to the participation of a child in a sexual act aimed toward the physical gratification or the financial profit of the person committing the act.

Child abuse - Wikipedia

Given this, it has been argued that trauma should be "everyone's business" and that, as members of the Scottish Workforce, everyone has a role to play in understanding and responding to people affected by trauma. This doesn't mean that everyone needs to be a trauma expert
