A golf cart (called golf car in ANSI standard Z130.1, since "carts" are not self-propelled) is a small vehicle designed originally to carry two golfers and their golf clubs around a golf course or on desert trails with less effort than walking.. Golf carts come in a wide range of formats and are more generally used to convey small numbers of passengers short distances at speeds less than 15 ...

The cam position sensor is critical to the proper functioning of the engine management system in its timing of engine events. The sensor delivers information on the position of the camshaft that actuates the engine's intake valves to the computer, which uses that information to deliver fuel and spark at the correct time.
