### **Flow and Diffusion Equations for Fluid Flow in Porous**

Diffusivity or diffusion coefficient is a proportionality constant between the molar flux due to molecular diffusion and the gradient in the concentration of the species (or the driving force for diffusion). Diffusivity is encountered in Fick's law and numerous other equations of physical chemistry.. The diffusivity is generally prescribed for a given pair of species and pairwise for a multi ...

7.9 Syllabus for PGAT-2018: PGAT TEST for M. Tech / M. Arch will be of 2 hours duration containing 90 questions. Out of this 90 questions, 30 questions will be common to all branches of PGAT candidates.

### **7.9 Syllabus for PGAT-2018: PGAT TEST for M. Tech / M**

In physics, Maxwell's equations in curved spacetime govern the dynamics of the electromagnetic field in curved spacetime (where the metric may not be the Minkowski metric) or where one uses an arbitrary (not necessarily Cartesian) coordinate system. These equations can be viewed as a generalization of the vacuum Maxwell's equations which are normally formulated in the local coordinates of flat ...
