Conditional redirect in SignOn PeopleCode. @Mike - I have seen this behavior when the SignOn Result Doc Page is still pointing to signonresultdoctext.html.

Sasank's PeopleSoft Log: Conditional Redirect in SignOn

Oracle Application Express (abbreviated APEX, previously named Oracle HTML DB) is a web-based software development environment that runs on an Oracle database. It is fully supported and comes standard (at no additional cost) with all Oracle Database editions and, starting with Oracle 11g, is installed by default as part of the core database install.

Architecture Overview. LoadRunner works by creating virtual users who take the place of real users operating client software, such as Internet Explorer sending requests using the HTTP protocol to IIS or Apache web servers.. Requests from many virtual user clients are generated by "Load Generators" in order to create a load on various servers under test

LoadRunner Architecture - Wilson Mar

Each invoice distribution line has its own accounting date. When you account for an invoice, your OraclePayables application creates accounting events, accounting entry headers and accounting entry lines for those distribution lines that have accounting dates included in the selected accounting date range for the Payables Accounting Process.The accounting entries can then be transferred over ...
