The principle of estout is simple: you run a command in Stata that generates some statistics, you tell estout to (temporarily) store those results and then you create a table.

Automated Table generation in Stata and integration into

The Girls – Education Challenge (GEC) was launched by the UK in 2012 as a 12 year commitment to reach the most marginalised girls in the world and is the largest global fund dedicated to girls ...

Girls' Education Challenge - GOV.UK

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.

1.1 Imports. The easiest form of data to import into R is a simple text file, and this will often be acceptable for problems of small or medium scale.

R Data Import/Export

Mathcad is computer software primarily intended for the verification, validation, documentation and re-use of engineering calculations. First introduced in 1986 on DOS, it was the first to introduce live editing of typeset mathematical notation, combined with its automatic computations.
