A zoo (short for zoological garden or zoological park and also called an animal park or menagerie) is a facility in which all animals are housed within enclosures, displayed to the public, and in which they may also breed.. The term "zoological garden" refers to zoology, the study of animals, a term deriving from the Greek *zōon* (ζῷον, 'animal') and *lógos* (λόγος, 'study').

A Hopfield network (HN) is a network where every neuron is connected to every other neuron; it is a completely entangled plate of spaghetti as even all the nodes function as everything. Each node is input before training, then hidden during training and output afterwards. The networks are trained by setting the value of the neurons to the desired pattern after which the weights can be computed.
